Washington, D.C. – Today, Congressman Sires, with colleagues in the House and Senate, introduced legislation to

“New Jersey has taken a leadership role in solar energy technology --- we are second in the nation in production of solar energy equipment.”

The 10 Million Solar Roofs and 10 Million Gallons of Solar Water Heating Act of 2010 would provide rebates for the installation of solar water heating systems and solar roofs.

This bill has been referred to the appropriate Committees of jurisdiction.
